RE: Veolia ES Technical Solutions, L.L.C.
163121AAP
Waiver Petition for Conducting Comprehensive Performance Test at Incinerators 2, 3 and 4 as required by Subpart EEE – National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors

Dear Ms. Newton,

Veolia ES Technical Solutions, L.L.C. in accordance with 40 CFR 63.1207(e)(3)(ii), is requesting under 40 CFR 63.7(h) a waiver petition for a six-month extension for conducting the comprehensive performance tests at Incinerators 2, 3 and 4 as required by 40 CFR Subpart EEE - National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors.

On October 14, 2008, Veolia submitted to USEPA and IEPA Comprehensive Performance Test Plans for Incinerators 2, 3 and 4. As defined in 40 CFR 63.1207(e)(i)(A), the Administrator will notify a source within 9 months after receipt of the original plan of their intent to deny or approve these Plans. In a letter dated July 15, 2009, Veolia received comments on these Plans from your Agency. Veolia is in the process of responding to the Agency's comments. Also, as required by 40 CFR 63.1207(e)(ii)(2), Veolia is required to make these site-specific test plans available to the public no later than 60 calendar days before the initiation of testing that is required to start by October 14, 2009. In light of the facts that Veolia is currently working on responses to these comments, that Veolia is currently working with the Agency to potentially expand the scope of testing, and that the Plans will not be finalized by August 14 when the public notices are due, Veolia is requesting this extension. This extension will allow time to properly define the expanded scope of testing, revise the Plans appropriately, submit these changes to the Agency, and ensure that the proper notifications are made to the Public. In addition, it will allow the Facility to properly prepare the feeds and the incinerators to have a successful test. As required by 40 CFR 1207(e)(3)(iii), Veolia has attached a copy of the Document of Compliance with the Final Replacement Standards to document compliance with the existing regulation.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted, is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Upon review of this request, should the Agency have a need for additional information or questions, please contact Dennis Warchol at (618) 271-2804 or via e-mail at Dennis.Warchol@Veoliaes.com or me at (618) 271-2804 or via e-mail at Doug.Harris@Veoliaes.com.

Sincerely,

A handwritten signature in black ink that reads "Doug Harris". The signature is written in a cursive, flowing style.

Doug Harris
